CANAL ZONE CENSUS SHOWS POPULATION INCREASED TO 60,000

Total Enumeration Reveals the
Presence of Seventy Thou-
sand in Belt, of Whose Eight
Thousand Reside in Outside
Districts

ANCON, C. Z., August 8.—Work of
enumeration in connection with the
Canal Zone census was begun on Fri-
day, March 1, 1912, and concluded on
March 31. It was in charge of the
department of civil administration,
and was under the immediate direc-
tion of Edward W. Koch, an expert
from the bureau of the census at
Washington, and C. L. Lindrick, as-
sistant chief clerk of the department
of civil administration.

The total number of persons enum-
erated was 71,682, of whom 8961 were
employees of the canal commission and
the Panama Railroad Company, and
211 of contractors, who, while em-
ployed in the zone, resided in Pan-
ama and Colon, which placed the total
population of the Canal Zone, embrac-
ing the territorial scope above de-
scribed, at 62,810. Of that number,
19,413 were white; 31,325 were ne-
groes; 10,323 were mixed; 516 Chi-
nese and five Japanese; 378 were
Hindoos, and two were Filipinos.
There were also 648 persons reported
as Indians.

The last census of the Canal Zone,
prior to this, was taken as of June 23,
1908. The population of the Zone at
that time was reported at 59,903, so
in the interval since then there has
been an apparent gain of 12,807 in-
habitants.

Classified by citizenship, Great Brit-
ain leads in the present census, with
30,879; United States second with
11,850. Of the 11,850 American citi-
zens, 9,770 were natives of the United
States.

The report shows that the total
number of employees of the canal
commission and the Panama railroad
at the time of the enumeration was
41,174, of whom 32,543 resided in the
canal zone, and 8661 in Panama and
Colon. The number employed by the
canal commission was 33,241; by the
Panama railroad, 7933.

The population not included in the
towns was placed at 11,677, which
distributed by administrative dis-
tricts was as follows: Ancon, 1057;
Empire, 4821; Gorgona, 4428, and
Cristobal, 1371. The population, out-
side of the settlements located in the
territory contiguous to the canal and
railroad, was approximately 9900. The
total number of persons reported as
have arrived in the Canal Zone,
prior to February 26, 1904, when was
the date of the ratification of the
treaty with Panama, was 5667.

Gatun, which includes the native
settlement of New Gatun, is shown to
be the largest Canal Zone settle-
ment, with Empire a close second;
Cristobal, third; Gorgona, fourth, and
Panama, fifth.

DIABETES

The probabilities under Fulton's
Diabetic Compound seems to us to be
about as follows:

In cases of sixty years and over re-
ports have been so encouraging that it
is our belief that recovery or control
that prolongs life, in reasonable com-
fort is probable in most cases.

At fifty and over while response to
the treatment seems to be the general
rule, approaching forty the disease is
very obstinate and we would not make
strong claims.

Under thirty the results are very
small, and in children recoveries have
been rare and most of those were ob-
tained through the aid of skilled physi-
cians keeping the liver active, promot-
ing nutrition and giving alkalines
when necessary to control acetones.

Fulton's Diabetic Compound can be
had at Honolulu Drug Co.
